"Family to me is really the meaning of everything, love itself being our greatest purpose... recognising that we are all part of the human family, but also part of the natural world, not separate from it. This thinking can only lead to love and compassion for all life... For me family is more than my immediate family. It encompasses humans and our other animal cousins of the natural world, as well as our cousins the plants and trees. With united thinking we can heal, protect and raise every vibration of all life here on Earth."
